Dear Mrs. Rasmussen:

Re: Proposed Waste Dump, Kennecott Corporation, Barneys Canyon Mine,
M/035/009, Salt Lake County, Utah

Thank you for your July 9, 1993, letter and recent telephone inquiries regarding Kennecott Corporation's proposed waste dump expansion at their Barneys Canyon gold mining operation. Your July 9th letter, signed and delivered on your behalf by Mr. Hal A. LaFleur, indicates that you hold a 5/32 undivided interest in 165 acres of patented mining claims in Barney's Canyon.

You expressed a concern that your property may be adversely impacted by a waste rock dump being proposed by Kennecott for their Barneys Canyon Mine. Your letter asks that we advise the Board of Oil, Gas and Mining of this matter and that we hold this matter in abeyance until your investigation is complete. You indicate that you are in the process of obtaining legal and technical counsel to assist you in addressing your concerns with this proposal.

As you know, we have not yet received a new permit application from Kennecott to revise the Barneys Canyon mining and reclamation plan, but we anticipate its receipt this month. Until such time, we cannot act upon your request nor can we confirm that the mine plan will indeed impact the property in question or under dispute. Please be assured that we will notify you when we receive the revised application. During the permit review process, we will take appropriate
